

FOR IMMEDIATE RELEASE

Texas Hydraulics Holdings Inc. names new Senior Director of Human Resources

Temple, TX – 30 May 2017 - Texas Hydraulics Holdings, Inc., a manufacturer of custom fluid power components, appoints Natalie Curtis as Senior Director of Human Resources.

In her newly appointed role, Natalie will report directly to Mr. Patrick Taylor, Chief Executive Officer and lead the direction of human resources strategies focused on achieving Texas Hydraulics Holdings profitable growth aspirations. She will direct all strategic initiatives that strengthen employee engagement, performance management, and improving recruitment and retention.

"Natalie brings a wealth of experience to Texas Hydraulics Holdings", Taylor said. "Human relations is a vital part of our strategy in delivering effective differentiation to our customers, shareholders, associates and communities where we work and live. We are fortunate to be able to access her years of experience and expertise".

Ms. Curtis is a strategic HR Executive who is passionate about building relationships and advancing HR best-practices to create an engaged workforce that achieves organizational goals. She brings over 15 years of Human Resource experience and corporate leadership to the company and has held several leadership positions throughout her career. Preceding her role with the Texas Hydraulics Holdings team, Ms. Curtis held the position of Director of Human Resources at Commercial Metals Company, a publicly traded company.

"Texas Hydraulics Holdings and our associated brands are in a vitally important period of high growth, so I am pleased and excited to welcome Natalie as a key part of our leadership team. Her background, experience and track record of success will help drive focus in supporting our vision, talent needs and driving our businesses forward."

Ms. Curtis has a BS in Human Resources Development with a Specialization in Training and Design from Oakland University and is a certified facilitator of Myers Briggs.

About Texas Hydraulics

Texas Hydraulics has been serving the market since 1968 as a custom manufacturer of fluid power components. A leading manufacturer of hydraulic cylinders, swivels and chrome plating processes in the United States, Texas Hydraulics maintains its place as a leader in the industry by providing engineered and custom designed components and services. Over its nearly 50 year history, Texas Hydraulics has been solving application challenges and delivering highly engineered solutions that span a broad array of markets that include: Utility, Mining, Construction, Material Handling, Agriculture, Mining, Road Building, Military, Fire and Rescue, to name few.
